WORK EXPERIENCE

UI Developer

Visionwings Software Pvt Ltd., Hyderabad

- As a UI/Angular Developer at Visionwings Software, I've contributed extensively to web development projects.
- My role involved designing animated webpages using Angular 6.0's latest animation package, creating parent and child components, and implementing model form controls with bngModel directive.
- Collaborating with cross-functional teams, I applied custom styling with SASS, Bootstrap, and Angular 6.0, while managing dependencies through NPM commands.
- I conducted unit testing using Jasmine and Karma, participated in Agile practices like Daily Scrum Meetings, and maintained CSS code.
- Furthermore, I automated functional features, developed test cases and suites in Qmetry, utilized Jenkins for test automation, managed codebase

Freelancer

- Driven by a desire for growth, I ventured into freelancing, swiftly transitioning from a team member to founding my own team.
- Discovering innate leadership skills, I excelled in team management, project coordination, and client relations.
- My freelancing services encompass Web Development, Automation Tools, SEO, and SME, harnessing my expertise.
