EDUCATION

Bcom   Jun 2018 - Sep 2021
GITAM University, Visakhapatnam
When i started my Bcom, I was quite disappointed at the starting as i restarted my education and the entire course was different for me. But fortunately my Peers helped me through and I enjoyed every moment of my Bcom life.

B tech CSE(Discon)   Aug 2013 - Jun 2017
St. Mary's Group Of Institutions Guntur, Guntur
I had to drop of out of my Btech due an unfortunate accident in my Life hence I Pursed Bcom.

EMPLOYMENT

UI Developer   Sep 2021 - Present
Visionwings Software Pvt Ltd., Hyderabad
The moment I came out of my B com, I got into my Present company through my Btech friend's reference as I had my Knowledge from Btech times and I self learned Angular through my own effort since 2020 which helped me to crack the interview and land me in a quite the position.

And As a UI/Angular Developer at Visionwings Software, I have contributed to various aspects of web development projects. This includes designing animated webpages using the latest animation package in Angular 6.0, creating Angular 6.0 parent and child components, and implementing model form controls with the ngModel directive. I have also worked with the team to apply custom styling using SASS, Bootstrap, and Angular 6.0, as well as utilizing NPM commands for managing dependencies.

My responsibilities have involved unit testing with Jasmine and Karma, collaborating with cross-functional teams, maintaining

and updating CSS code, and participating in Agile practices such as Daily Scrum Meetings. Additionally, I have automated functional features for different platforms, developed test cases and suites in Qmetry, utilized Jenkins for test automation, managed codebase with Git and SourceTree, and logged defects in JIRA. Throughout my work, I have focused on improving SDLC processes, stability, reliability, and performance within an Agile environment.

Team Leader   May 2022 - Present
Self, Hyderabad

After joining my current company, I began exploring additional sources of income and was introduced to freelancing.

Eager to pursue this opportunity, I initially joined a freelance team and quickly progressed to establishing my own team. It was during this time that I discovered my inherent talent for effective team management, project coordination, and client relationship management, showcasing strong leadership qualities.

Motivated by a desire to surpass personal and collective limitations, I named my freelancing team "BnB," an abbreviation for Beyond n Beyond. This name represents my commitment to continuously pushing boundaries and achieving relentless growth.

In my freelancing endeavors, I have been providing services in Web Development, Automation Tools, SEO, and SME, leveraging my expertise in these areas.

PROFILE

CAREER OBJECTIVE

Seeking a position in an organization that fosters a culture of autonomy and encourages taking initiative, allowing me to contribute through both my thoughts and actions towards the company's vision. I aim to achieve personal growth by playing a pivotal role in building the organization utilizing my technical and innovative skills.
